## LOWE SYNDROME

I am delighted to welcome you here this evening to Six Hamilton Place on behalf of the Lowe Syndrome Trust.

Since forming in June 2000 as the only UK fundraising charity for the children's incurable disease called Lowe, we are delighted to have funded research at Great Ormond Street Hospital, Imperial College London, University College London and Dundee University. The Trust has also contributed \$25,000 to the Lowe Syndrome Association in America towards three Lowe projects. Hopefully, this research will lead to the development of drugs to better regulate the metabolic imbalance of Lowe disease and eventually a cure.

I would like to thank the sponsors and each one of you for helping achieve this by attending events such as this evening. If you would like more information, please visit [www.lowetrust.com](http://www.lowetrust.com) or contact the Lowe Syndrome Trust on 0208 458 6791

Jonathan Ross

Note: The Lowe Syndrome Trust is considering proposals for research projects from worldwide medical research institutions. The naming of these institutions for illustration in no way prejudices funding decisions.
